PROFILE

My self Rohan I am Third year computer Engineering Student. I am confident that my skills and confidence make me a strong candidate for an entry-level iOS developer, Web Developer , UI&UX Designer and c++ coder position. I am eager to learn and grow in this field, and I am confident that I can make a significant contribution to your team.

PROJECTS

Student Helping Application

Create a user-friendly app with SwiftUI, Swift, and Firebase tailored to engineering students. This essential tool will help newcomers navigate their unfamiliar college surroundings. Offering a comprehensive range of features, it enables users to locate nearby mess facilities, hostels, hospitals, xerox shop , the closest transportation stations, and essential stationary shops. Solving the issues you personally faced as a student arriving from your village, this app ensures a smoother transition for incoming students, making their educational journey more convenient and stress-free. With a sleek and intuitive interface, real-time data updates from Firebase, and the power of Swift, this app becomes an indispensable companion for every engineering student, simplifying their daily life and fostering a sense of belonging in their new environment.

Agricultural Management System

DBMS mini Project

ACHIEVEMENTS
